

Lake County Forest Preserve District – Carbon Planting Project Monitoring Report

Project Operator Name: Lake County Forest Preserve District

Project Name: Lake County Forest Preserve District – Carbon Planting Project

Project Location: Lake County, Illinois – multiple locations at various preserves

Deadline to Submit to CFC (*annually from the date of the first Verification Report*): December 20, 2024

- 1. Has the contact information for the Project Operator changed? If so, provide new contact information.**

No changes to contact information for the reporting period.

- 2. Have there been changes in land ownership of the Project Area?**

No changes

- 3. Have there been any changes in the Project Design?**

No changes

- 4. Have there been any changes in the implementation or management of the Project?**

No changes

- 5. Have there been any significant changes to the site (such as flooding or human changes)?**

The Lake County Forest Preserve District manages all properties. Management/habitat restoration activities occur throughout many preserves and may overlap with tree planting sites. Reestablishing natural hydrology, (re)introducing native species, i.e. seeding, and reducing invasive species may take place in planting areas, but are not expected to negatively impact the project/trees.

- 6. Have there been any significant tree or canopy losses estimated to be greater than 10% of Project Trees or 10% of canopy?**

No losses greater than 10% have been identified

- 7. Do you anticipate future canopy loss (such as a new pest or disease issue found)?**

No known pests/disease issues have been identified that would cause anticipated future loss

8. Any other significant elements to report?

No other significant elements to report

Signed on November 14th in 2024, by Matt Ueltzen, Manager of Restoration Ecology, for the Lake County Forest Preserve District.
